

ADAM K DEAN

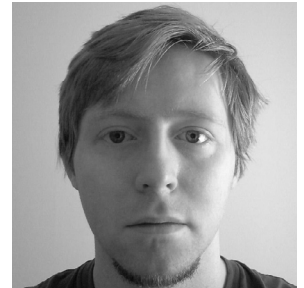

ASP.NET WEB DEVELOPER

+44 7817 022812
adamkdean@gmail.com
www.adamkdean.co.uk

Self-taught web developer and designer. I specialise in web development using modern .NET technologies, the C# programming language and an array of support skills.

I'm an enthusiastic self-starter with a burning passion for web development. I'm a friendly, hard working, and energetic person who loves working on projects both alone and with others.

My goal is to obtain a position as a .NET developer in an exciting and modern company where I can bring my experience to the table, but also learn from like-minded individuals.

Primary Skills

C#	Understanding: Very Strong Experience: 6 Years
ASP.NET	Understanding: Strong Experience: 5 Years
MVC	Understanding: Solid Experience: 1 Year

Secondary Skills

HTML	Understanding: Very Strong Experience: 8 Years
CSS	Understanding: Strong Experience: 7 Years

PHP	Understanding: Solid Experience: 5 Years
SQL	Understanding: Solid Experience: 8 Years

Software Skills

Visual Studio	Understanding: Very Strong Experience: 13 Years
MSSQL	Understanding: Strong Experience: 5 Years
Photoshop	Understanding: Very Strong Experience: 7 Years
Illustrator	Understanding: Solid Experience: 1+ Years
Git/Svn	Understanding: Solid Experience: 2 Years

Projects

Author/Lead Developer Jan 2013 – present

EasyAuth .NET Authentication

EasyAuth is a simple, secure, and easy to use alternative to ASP.NET Membership authentication.

Working with a fellow developer, I designed and wrote this library to provide an easy and lightweight authentication system.

Url: <http://github.com/lmdsm/EasyAuth>

Author Feb 2013 – present

EasyHashProvider

Secure, easy hash providers for password hashing/salting.

I wrote this library to provide safe password storing for EasyAuth.

Url: <http://github.com/lmdsm/EasyHashProvider>

Experience & Education

IT Manager/Developer July 2010 – present

West Point Machine Tools

I came into the company when it had no digital awareness at all. I took the company from living in the dark ages to being one of the top machine tool companies on the web.

During my time here I have developed a network of SEO websites and social media profiles, feeding traffic to one main website, increasing the annual visits to the website from an estimated 3,000 visits a year to over 30,000 visits a year.

I also developed a stock management application (resulting in a major increase in productivity and organisation), automatic blogspot and twitter feed applications, and email marketing software (before moving to MailChimp).

Freelance Web Designer May 2009 – July 2010

Adams Media Design

Provided web/graphic design and web development services to individuals and business all over the world.

Worked with clients to understand their organisations, identify their needs and produce the solutions that fit their circumstances.

Software Developer Jan 2008 – July 2008

World Wise Kids Ltd

Worked on Salesforce-esque software tailor fit to suit the company and the product that was being sold. Also set up and maintained the development servers used for both the product and the sales system.

Also headed up the website design and programming of the product, a children's educational website for schools.

GCSE Qualifications Sept 2001 – July 2006

Copley Maths & Computing College

Attained 8 GCSEs grades A*-C.
